

O LED SCENELITE (SI6)

- Over 1700 lumens
- O Low energy (only 18W)
- O Unique light projections
- O Waterproof to IP67
- O E-type approved

- Over 1700 lumens output Using the very best LED technology, the LED Scenelite produces 1704 lumens, providing up to an average of 40 lux across six square metres (in-house testing results).
- **Long life, high intensity Cree LEDs -** This technology produces a clean white light and creates a safe working environment providing a light output of over
- O Low energy (only 18W) Most tungsten scene lights use 40 50W of power to produce 500 700 lumens.
- Unique light projections The Scenelite produces superior illumination due to a unique design. All six LEDs are first angled at 40 degrees towards the ground, the outer two are then tilted by 30 degrees to each side, improving light distribution.
- Waterproof to IP67 The tough outer enclosure and potting over more sensitive components provides protection against severe weather conditions and pressure washing.
