

SB9 PRO DRIVING LIGHTS

SKU: B6DL9SB

STATS THAT COUNT.

The SB9 Pro brings a new era to the Driving Light market that provides uniform light projection both in front of and to the sides of the road. With its high flux Osram LED chips and unique optics, the SB9 Pro offers superior lighting at a whopping distance of 1.9km. With its insane 49,830 lumens, the SB9 Pro LED Driving Light is one of the brightest Driving Lights in its class.

LEAVE THEM IN ENVY.

The SB9 Pro is the perfect way to show the world you have arrived. With its cutting-edge front position light design, this LED Driving Light is sure to turn heads. Another benefit is that the DRL Backing Light helps to improve the visibility of the vehicle to other drivers, which can lead to fewer accidents. Whether you're cruising down the street or standing at a red light, the SB9 Pro will make you not only look good but, ensure your presence is known.

ITS IN THE DETAILS.

The SB9 Pro are the brightest and most durable option available on the market, giving you intense light within a functional beam pattern. The 66 6.2W OSLOON Black Flat LED chips per pair will provide an incredible 1,946m beam distance, while the 49,830lm raw lumen output punching through our purpose-made reflector ensures there's never a dark patch in sight.

Experience ultimate durability with their 7mm alloy die-cast brackets - thicker than what most of our competitors offer. With ours, you can be assured that your lights won't budge, crack or snap from the harsh Australian Environment. Plus, with our lifetime warranty, you'll never have to worry about wear and tear again!
