

BASE6 MINELUX Beacon, Rechargeable

The BASE6 MINELUX Rechargeable Beacon is a high-performance, portable warning light that provides maximum durability and visibility. Engineered to meet the demands of challenging environments, this beacon uses an amber LED paired with an amber lens to deliver a high-intensity, reliable signal. Perfect for emergency vehicles, construction zones, industrial settings, and more, the MINELUX ensures safety and visibility when it matters most.

SKU: B6MLBA-RECHARGE

Key Features:

Amber LED & Amber Lens

High-powered amber LED lights combined with a durable amber lens offer excellent visibility day or night, even from long distances, in all weather conditions.

Rechargeable Battery

Equipped with a built-in rechargeable battery, this beacon eliminates the need for frequent battery replacements, providing a cost-effective and eco-friendly solution for long-term use.

Remote Control Operation

Effortlessly control the beacon from a distance with the included remote, allowing easy activation and deactivation without the need to approach the unit.

Medium Height Design

Designed for optimal visibility, this medium-height beacon is compact enough for easy installation while ensuring maximum effectiveness in any application.

BASE6 MINELUX Beacon, Rechargeable

ECE, SAE & CE Approvals

ECE, SAE & CE approvals for high-visibility performance, ensuring top-tier quality and compliance with global standards.

IP66 Rating

With an IP66 rating, the beacon is fully protected against dust and water ingress, ensuring reliable operation in harsh outdoor and industrial environments.

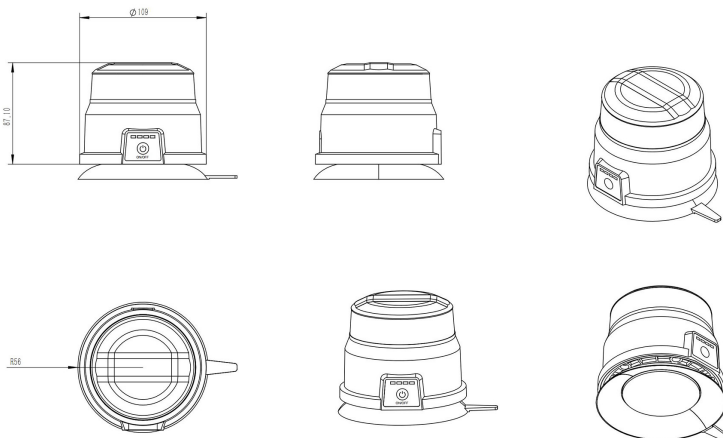

Magnetic Mount

The integrated magnetic base allows for fast, secure, and flexible installation on metal surfaces, making it ideal for temporary and mobile setups.

3-Year Warranty

Backed by a 3-year warranty, the MINELUX Rechargeable Beacon offers long-term reliability, giving you peace of mind and confidence in its durability.

Dimensions

SPECIFICATION

Dimensions	109x109x87mm
Power	24W LED Chip
Light source	24pcs 1W LED
Waterproof	IP66
Flashing patterns	10 Patterns
Approval	ECE, SAE, CE
Battery	5000mAh rechargeable battery
Working hours	4-10 hours
Charging hours	4 hours
Speed Rating	Tested to 250km/h
Voltage	10-30V
Housing Material	Aluminium Housing
Lens Material	UV resistant PC Lens
Lens Colour	Amber
Mounting	32KG Magnetic pull force base
Control	Remote
Warranty	3 Years
Working Temp	-45°C ~ +65°C
