

GUARDIAN ANGEL™

Illumination Without Boundaries

Guardian Angel™ devices are designed with a core belief that personal lighting technology makes the world a safer place. Our mission is to **save lives** by developing innovative, high-tech wearable safety devices that are rugged enough to **protect the lives of law enforcement and first responders** in the field, yet practical and versatile enough to be a must-have tool on any **construction site or outdoor adventure**.

Person Safety Lighting Device

The Elite Series

Fueled By Innovation

The Elite Series is our newest and most advanced model, and features a complete redesign of our original safety lighting devices. With this evolved safety device our designers pushed the limits and developed literally the most advanced personal safety light on the planet. The Elite Series is smaller, lighter, stronger, and brighter than previous models while boasting some of the most advanced LED lighting technology on the market.

These devices feature a custom designed lithium ion rechargeable battery, built-in rare earth magnet, multiple mounting accessories, high powered LEDs providing over 4+ miles of visibility, independent front, rear, and top light controls, an ultra-bright white LED on top, emergency mode, three brightness settings, a 360° light pattern, a polycarbonate and waterproof exterior, and a universal micro-USB charging port. The Elite Series is small enough for the everyday adventurer to use, but tough enough for first responder and construction use as well.

Device Features

Increased visibility

Tested up to 4 miles of visibility using high powered LEDs, 360° illumination

Lightweight

At approximately 3 Oz, the polycarbonate materials make the device strong and lightweight.

Portable & Versatile

Built in Neodymium magnet and corresponding magnet clip (included) attaches to nearly any surface.

Light Output & Flashing Pattern

The Elite Series has three brightness settings – low, medium, and high. Easily toggle through the settings depending on what the situation calls for. Either side has constant on or flashing settings.

Long Battery Life

State of the art custom built lithium ion rechargeable battery using micro-USB charger (included) offers between 4 and 150 hour run time, based on light mode and brightness setting. Recharge time of less than three hours.

Built Tough

IP68 Rated, durable, shock proof, water and dust proof, and able to withstand extreme work/weather conditions.

Customizable

Can change the light color configuration, the color of the casing (standard is black), or even add your company's logo. Minimum order sizes required.

Numerous Mounting Options

Applications for individuals, epaulets, vehicles, bikes, ATVs, snowmobiles, canines, turnout gear, medical bags, dashboards, windows, belts, hard hats, soft caps, cones, head gear, traffic signs, boats, tree stands, safety vests,

Stealth Work Light Feature

Single red LED work light for low light environments.

Unlimited Versatility

Guardian Angel Elite Series wearable safety lights are trusted by thousands of people across the world to help keep them safe. Each device is engineered using the highest-grade components to ensure durability, cutting-edge functionality, and unparalleled versatility for any situation.

What Others Are Saying...

"Small, lightweight and amazing!"
Aaron C.

"Awesome product"
Joe K.

"All officers need this!"
Trent S.

"An Amazing and Must Have Piece of Equipment"
Eddie M.

One of our core markets is devoted to our brothers and sisters risking their lives as law enforcement officers. With them and their safety in mind, we designed the most versatile and highest performing law enforcement safety light offered on the market today. The Elite Series Law Enforcement models boasts white, red, and blue high-powered LEDs, a red low light work light, enhanced hands-free white work lights, and independent light controls on the front and back which allows different lighting patterns for any situation. Add in waterproof casing as well as a variety of interchangeable mounting options and you have a safety device that truly stands by itself.

 **GA-ELT-IR**
All Infrared

Eighteen (18) 940 nanometer infrared LEDs

2 second button hold to activate (avoid inadvertent activation)

Front and rear controls

Constant on and strobe settings

 **GA-ELT-RBIR**
Red/Blue & IR Hybrid

Same light configuration as standard LE models, but replaces the single white LED on top of the device with an Infrared LED

Activated by pushing the GA emergency button

Red work light flashes faintly every few seconds when IR top light is activated

2 second button hold to activate front and back LEDs (avoids inadvertent activation)

Once front or back LEDs activated, buttons become immediately responsive
